

National Digital Health Blueprint

India · 2019 · English, Hindi

Proposes a federated architecture for health data exchange, a national health identifier, and a registry of verified health facilities and practitioners.

Placeholder document. This file was generated as sample content for the eHealth Strategies Registry starter project. It does not represent an official government publication. Replace this file with the genuine, official strategy document before publishing this site — see README.md for instructions.

Note: Sample entry — replace with the current, verified official document before publishing this site.
